Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

This action is responsive to amendment filed on October 9, 2009, where Applicant amended claims 1,4,5,8-10, and canceled claims 2-3,6-7. Claims 1,4,5,8-12 remain pending.

Response to Arguments

1. Applicant's arguments, filed 10/9/2009 have been fully considered and are persuasive. The previous rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of **Bahl et al (US Publication 2003/0054818)**, as outlined below. Applicants arguments are therefore moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. **Claims 1,4,5,8-12 rejected under 35 U.S.C. 102(e) as being anticipated by Bahl et al (US Publication 2003/0054818).**

4. In reference to claim 1, Bahl teaches a method of forming multiple simultaneous active wireless connections between a wireless client and two or more separate wireless access points in a wireless local area network, the method comprising the steps of:

obtaining, by the wireless client, a first primary active affiliation between the wireless client and a first primary_ wireless access point in the wireless local area network, the first primary_ wireless access point providing ongoing communication services to the wireless client by sending data to the wireless client and receiving data from the wireless client on the first primary active affiliation; (see at least para 27)

obtaining, by the wireless client, a second primary_ active affiliation between the wireless client and a second primary wireless access point in the wireless local area network, the second primary wireless access point providing ongoing communication services to the wireless client by sending data to the wireless client and receiving data from the wireless client on the second primary_ active affiliation; (see at least para 29)

maintaining and using, by the wireless client, the first primary active affiliation between the wireless client and the first primary wireless access point in the wireless local area network and the second primary active affiliation between the wireless client and the second primary wireless access point in the wireless local area network during a period of operation of the wireless client when the wireless client is not engaging in a handoff process between access points.(see at least para 30-31)

5. In reference to claim 4, this is taught by Bahl, see at least para 27-28.
6. In reference to claim 5, this is taught by Bahl, see at least para 27-28.
7. In reference to claim 8, this is taught by Bahl, see at least para 30-31.

8. In reference to claim 9, this is taught by Bahl, see at least para 30-31.
9. In reference to claim 10, this is taught by Bahl, see at least para 38.
10. In reference to claim 11, this is taught by Bahl, see at least para 50.
11. In reference to claim 12, this is taught by Bahl, see at least para 29.

Conclusion

12. The above rejections are based upon the broadest reasonable interpretation of the claims. Applicant is advised that the specified citations of the relied upon prior art, in the above rejections, are only representative of the teachings of the prior art, and that any other supportive sections within the entirety of the reference (including any figures, incorporation by references, claims and/or priority documents) is implied as being applied to teach the scope of the claims.

13. Applicant may not introduce any new matter to the claims or to the specification. For any subsequent response that contains new/amended claims, Applicant is required to cite its corresponding support in the specification. (See MPEP chapter 2163.03 section (I.) and chapter 2163.04 section (I.) and chapter 2163.06)

14. In formulating a response/amendment, Applicant is encouraged to take into consideration the prior art made of record but not relied upon, as it is considered pertinent to applicant's disclosure. See attached Form 892.

15. Applicant's amendment necessitated the new ground(s) of rejection presented in this

Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
